New Web Based RTS

Everyone with Internet Access can follow the Agenda for any Committee meeting live as the meeting takes place.

Even though you may have had an account in the old system, you may need to go to the Capitol to create a new account to use the New Web Based system.

Access to New Web Based RTS from the Arizona State Legislature Home Page

Once you have an account, log in here:

https://apps.azleg.gov
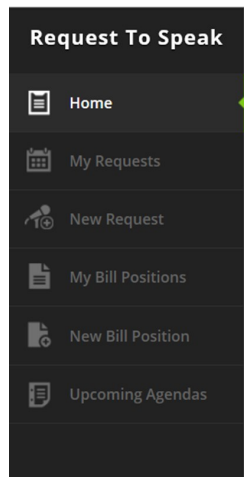

Or go to the Arizona State Legislature Home page and click on the link provided there.

http://azleg.gov

After entering your email address and password you can log on. There are several options available to you.
1. View all of your Requests to Speak and all of your Positions on Bills in one screen.
2. View just your Requests to speak.
3. Make a new Request to Speak.
4. View just your positions on Bills.
5. Create a new position on a Bill.
6. Search Upcoming Agendas

The Navigation Bar

The **Home** option will show all of the Requests to Speak and the Positions you have on bills.

The **My Requests** option will allow you to view the Requests To Speak you have made.

The **New Request** option allows you to create a Request to Speak on a bill on a current agenda.

The **My Bill Positions** option will allow you to view the Positions you have on bills.

The **New Bill Position** options allows you to create a Position on a bill on a current Agenda without requesting to speak.

The **Upcoming Agendas** option allows you to find agendas for bills in upcoming committee meetings.

Track What is Happening in Committee Live

The new Web Based Request to Speak program allows you to track what is happening in a committee as it happens. After finding your committee you will see the bills and presentations that are available for the public to sign up to speak.

Expanding the view of any bill will show you who has signed up to speak, their positions, who they represent, and any comments they may have made.

As the meeting progresses you will be able to see who has spoken on a bill as the Committee Chair or Vice-Chair marks the status updates.

You will also be able to see the final action on the bill, if the order of bills changes, and if the order of speakers changes.

	Bill marked as passed
	Bill marked as failed
	Bill marked as held
	Bill marked as discussion only
	Bill marked as withdrawn

Watch a Legislative Committee in Real Time

Committee meeting activity is now available to anyone with Internet access to watch in a committee as it happens. See who signed up to speak and track when they have spoken. Track what order bills are being heard. Track if the bill passed, failed, was held in committee, for discussion only, or withdrawn.
