

PROPOSITION 122
[SCR 1016 (2013)]

rejection of unconstitutional federal actions

ANALYSIS BY LEGISLATIVE COUNCIL

1 Proposition 122 would amend the Arizona Constitution to confirm that the state
2 and federal government are subject to the United States Constitution.

3 Proposition 122 also would provide that Arizona may restrict the actions of its
4 personnel and the use of its financial resources to purposes that are consistent with the
5 United States Constitution by passing an initiative, referendum or bill or by pursuing any
6 other available legal remedy. The state, counties, cities, towns and other political
7 subdivisions of the state would be prohibited from using any personnel or financial
8 resources to enforce, administer or cooperate with a federal action or program if the
9 people or their representatives have exercised their authority to restrict such action or use.
