Sec. 4. <u>Legislative findings</u>

Wireless services bring important daily benefits to the residents of this state, including sending and receiving constitutionally protected speech and other communications. Varying conditions and restrictions on access to the public highways, streets, roads and alleys across multiple subdivisions of this state can impede the use of these services by, and their delivery to, the residents of this state. Therefore, the legislature finds, determines and declares that this act is necessary as a matter of statewide concern to ensure that cities, towns and counties, including charter cities, compatibly and effectively authorize, administer and manage the use of the public highways, streets, roads and alleys for the provision of certain licensed and unlicensed wireless communication services. It is the public policy of this state that this act be enforced to the fullest extent permitted by federal law.

Sec. 5. Applicability

- A. Section 9-506, subsection I, Arizona Revised Statutes, as amended by this act, allowing an affiliate of a licensed cable operator to attach to the cable television system and operate and maintain allowed Wi-Fi radio equipment in public streets, roads and alleys, applies to all cable television licenses issued before the effective date of this act.
- B. Sections 9-582 and 9-584, Arizona Revised Statutes, as amended by this act, allowing certain persons to install, operate and maintain microcell and small cell equipment in the public highways within a political subdivision, apply to all persons specified in this act and their affiliates, including those with telecommunications or cable television licenses or other authorizations that took effect or were issued before the effective date of this act, except that any agreement by a person specified in this act or its affiliate to install, operate and maintain small cell equipment in the public highways within a political subdivision that was entered into on or before December 31, 2016 is not subject to the amendment of section 9-584, Arizona Revised Statutes, and remains enforceable in accordance with the agreement's terms and conditions.
