and all state taxes allocated to the fund shall be irrevocable and shall be used to pay benefits under the plan or to pay expenses of the plan and fund. The minimum employer contribution that is paid and that is in excess of the normal cost plus the actuarially determined amount required to amortize the unfunded accrued liability as calculated pursuant to this subsection shall be used to reduce future employer contribution increases and shall not be used to pay for an increase in benefits that are otherwise payable to members. A member may not, under any circumstance, borrow from, take a loan against or remove contributions from the member's account before the termination of membership in the plan or the receipt of a pension.

- 2. The remaining 66.7 percent of the normal cost and the remaining 50 percent of the actuarially determined amount required to amortize the total unfunded accrued liability as determined pursuant to paragraph 1 of this subsection shall be divided by the total number of the employer's members who were hired on or after July 1, 2018 such that each member contributes an equal percentage of the member's compensation. - 2. The board determines that the receipt of any additional contributions required under this section would conflict with its fiduciary responsibility.
- M. For the purposes of calculating unfunded liability amortization payments pursuant to subsection A of this section, an employer may make a onetime election to request that the board use a closed period of not more than thirty years if the employer meets both of the following requirements:
- 1. The governing body of the employer adopts a resolution requesting the longer amortization period and specifying the actuarial valuation date for which the new amortization period is to begin.
