Fifty-fifth Legislature  
Second Regular Session  
2022

# HOUSE RESOLUTION 2004

A RESOLUTION

SUPPORTING FEDERAL LEGISLATION TO TRANSFER FEDERALLY OWNED MATERIALS TO  
BORDER STATES TO CONSTRUCT A BORDER WALL.

(TEXT OF BILL BEGINS ON NEXT PAGE)

1           Whereas, in 2017, President Donald Trump issued an executive order  
2 to secure the southern border of the United States by planning, designing  
3 and constructing a physical wall at the southern border using appropriate  
4 materials and technology to prevent illegal immigration, drug and human  
5 trafficking and acts of terrorism; and

6           Whereas, in 2019 President Trump went further, declaring a national  
7 emergency at the southern border, which diverted billions of dollars in  
8 defense funds to build the wall; and

9           Whereas, the wall has been effective in impeding illegal drug  
10 activities, border crossings and other crimes that jeopardize innocent  
11 lives in areas where the barriers have been raised; and

12           Whereas, on January 20, 2021, President Joe Biden terminated the  
13 national emergency related to the southern border, including pausing the  
14 construction of the wall at the border; and

15           Whereas, President Biden's proclamation also directed the United  
16 States Secretary of Defense and the United States Secretary of Homeland  
17 Security to develop a plan to redirect monies concerning the southern  
18 border wall; and

19           Whereas, contracts had already been signed and millions of dollars  
20 of materials, including steel, light poles and rebar, have been delivered  
21 to the southern border to construct the wall. These materials have been  
22 rusting, unused in the desert heat, requiring even more monies for site  
23 maintenance and security; and

24           Whereas, a plan does not currently exist regarding using the  
25 remaining materials; and

26           Whereas, although the Trump administration completed 455 miles of  
27 new barriers along the border, many sections remain unfinished; and

28           Whereas, border fences are an essential element in stemming illegal  
29 cross-border traffic; and

30           Whereas, a robust strategy is necessary to curtail this reckless  
31 misuse of materials; and

32           Whereas, H.R. 5810, introduced in the United States House of  
33 Representatives, allows the United States Army and the Department of  
34 Homeland Security to transfer unused materials obtained for the border  
35 wall to Arizona, New Mexico and Texas to construct a border wall in each  
36 state; and

37           Whereas, this prudent legislation will ensure that the materials  
38 already bought and paid for with taxpayer money will be used to secure the  
39 southern border.

40 Therefore

41 Be it resolved by the House of Representatives of the State of Arizona:

42           1. That the Members of the House of Representatives support federal  
43 legislation to transfer unused federally owned materials to this state,  
44 New Mexico and Texas.

45           2. That the Members of the House of Representative support using  
46 these materials to construct a wall along the southern border.

PASSED BY THE HOUSE FEBRUARY 3, 2022.

FILED IN THE OFFICE OF THE SECRETARY OF STATE FEBRUARY 7, 2022.
