Fifty-sixth Legislature  
First Regular Session  
2023

## **HCM 2006**

Introduced by  
Representative Griffin

### A CONCURRENT MEMORIAL

URGING THE UNITED STATES CONGRESS TO APPROPRIATE MONIES AND FEDERAL ENTITIES TO DEVELOP SOLUTIONS TO ERADICATE SALT CEDARS IN ARIZONA WATERWAYS.

(TEXT OF BILL BEGINS ON NEXT PAGE)

1 To the Congress of the United States of America, the Secretary of the  
2 United States Department of the Interior and the Secretary of the  
3 United States Department of Agriculture:

4 Your memorialist respectfully represents:

5 Whereas, the salt cedar tree, also known as the tamarisk, was  
6 brought to the United States in the 1800s as an ornamental plant to  
7 stabilize soil and control erosion; and

8 Whereas, salt cedars are now listed as an invasive species by the  
9 United States Department of Agriculture; and

10 Whereas, salt cedars spread prolifically by both seed and sprouting,  
11 congesting thousands of acres of river land in Arizona; and

12 Whereas, the density of salt cedars creates dangerous conditions by  
13 congesting flood-prone areas, impeding water flow and exacerbating the  
14 impact of flooding; and

15 Whereas, by increasing the frequency and intensity of wildfires,  
16 salt cedars threaten existing and future infrastructure in surrounding  
17 communities; and

18 Whereas, this invasive plant out-competes native cottonwood,  
19 mesquite and willow and displaces riparian and other wildlife habitats by  
20 altering the ecology and hydrology of native systems; and

21 Whereas, each salt cedar tree consumes 200 to 300 gallons of water a  
22 day, which lowers the water table and creates large deposits of salt in  
23 the soil; and

24 Whereas, salt cedars negatively impact Arizona's economy by  
25 jeopardizing agriculture due to high water usage, tending to obstruct  
26 irrigation canals and limiting recreational opportunities; and

27 Whereas, eliminating salt cedars will sustain precious water  
28 supplies, reduce the risk of environmental disasters and minimize  
29 structural and ecological damage and loss of life.

30 Wherefore your memorialist, the House of Representatives of the State of  
31 Arizona, the Senate concurring, prays:

32 1. That the United States Congress appropriate monies to the State  
33 of Arizona to eradicate salt cedars from Arizona waterways.

34 2. That the United States Department of the Interior and the United  
35 States Department of Agriculture develop innovative solutions to control  
36 the proliferation of salt cedars.

37 3. That the Secretary of State of the State of Arizona transmit  
38 copies of this Memorial to the President of the United States, the  
39 President of the United States Senate, the Speaker of the United States  
40 House of Representatives, the Secretary of the United States Department of  
41 the Interior, the Secretary of the United States Department of Agriculture  
42 and each Member of Congress from the State of Arizona.
