Before transferring federal temporary assistance for needy families block grant monies to the social services block grant, the department of child safety shall report the proposed amount of the transfer to the director of the joint legislative budget committee. This report may be in the form of an expenditure plan that is submitted at the beginning of the fiscal year and updated, if necessary, throughout the fiscal year.

The amount appropriated for kinship care shall be used for a stipend of \$300 per month for a relative caretaker, including a grandparent, any level of great-grandparent or any nongrandparent relative, or a caretaker of fictive kinship, if a dependent child is placed in the care of a relative caretaker or caretaker of fictive kinship pursuant to department guidelines. Of the amount appropriated in the operating lump sum, \$495,853,200 \$480.658.000 is designated for personal services. \$234,006,200 \$227,494,000 is designated for employee-related expenditures \$15,540,500 is designated for overtime expenditures. The department shall submit an expenditure plan for review by the joint legislative budget committee before spending these monies other than for personal services or employee-related expenditures.

After the department submits an expenditure plan to the joint legislative budget committee, the department may transfer personal services and employee-related expenditures savings from the operating budget to the private prison per diem line item for private prison staff stipends. The amount of any private prison staff stipend may not exceed the amount given to department staff. The expenditure plan is not subject to review by the joint legislative budget committee.

Private prison vendors who contract with this state may use staff vacancy savings to pay for overtime costs without incurring a penalty or staffing offset.

Before placing any inmates in out-of-state provisional beds, the department shall place inmates in all available prison beds in facilities that are located in this state and that house Arizona inmates, unless the out-of-state provisional beds are of a comparable security level and price.

The state department of corrections shall forward to the president of the senate, the speaker of the house of representatives, the chairpersons of the senate and house of representatives appropriations committees and the director of the joint legislative budget committee a monthly report comparing department expenditures for the month and

- 17 -

 year-to-date as compared to prior-year expenditures on or before the thirtieth of the following month. The report shall be in the same format as the prior fiscal year and include an estimate of potential shortfalls, potential surpluses that may be available to offset these shortfalls and a plan, if necessary, for eliminating any shortfall without a supplemental appropriation. The report shall include the number of filled and vacant correctional officer and medical staff positions departmentwide and by prison complex.

On or before November 1, 2023, the state department of corrections shall provide a report on bed capacity to the joint legislative budget committee. The report shall reflect the bed capacity for each security classification by gender at each state-run and private institution, divided by rated and total beds. The report shall include bed capacity data for June 30, 2022 and June 30, 2023 and the projected capacity for June 30, 2024, as well as the reasons for any change within that time period. Within the total bed count, the department shall provide the number of temporary and special use beds. The report shall also address the department's rationale for eliminating any permanent beds rather than reducing the level of temporary beds. The report shall also include any plans to vacate beds but not permanently remove the beds from the bed count.

If the department develops a plan after the department's November 1, 2023 report to open or close 100 or more state-operated or private prison rated beds, the department shall submit a plan detailing the proposed bed changes for review by the joint legislative budget committee before implementing these changes.

One hundred percent of land earnings and interest from the penitentiary land fund shall be distributed to the state department of corrections in compliance with the enabling act and the Constitution of Arizona to be used to support state penal institutions.

On or before December 15, 2023 and July 15, 2024, the state department of corrections shall submit a report to the joint legislative budget committee on the progress made in meeting the staffing needs for correctional officers. Each report shall include the number of filled correctional officer positions, the number of vacant correctional officer positions, the number of people in training, the number of separations and the number of hours of overtime worked year-to-date. The report shall detail these amounts both departmentwide and by prison complex.

44 45 Before spending the monies for the replacement of the prepaid medicaid management information system, the Arizona strategic enterprise technology office shall submit, on behalf of the Arizona health care cost containment system, an expenditure plan for review by the joint legislative budget committee. The report shall include the project cost, deliverables, the timeline for completion and the method of procurement that are consistent with the department's prior reports for its appropriations from the automation projects fund.

Medical services and behavioral health services

Before making fee-for-service program or rate changes that pertain to fee-for-service rate categories, the Arizona health care cost containment system administration shall report its expenditure plan for review by the joint legislative budget committee.

The Arizona health care cost containment system administration shall report to the joint legislative budget committee on or before March 1, 2025 on preliminary actuarial estimates of the capitation rate changes for the following fiscal year along with the reasons for the estimated changes. For any actuarial estimates that include a range, the total range from minimum to maximum may not be more than two percent. Before implementing any changes in capitation rates, the administration shall report its expenditure plan for review by the joint legislative budget committee. Before the administration implements any change in policy affecting the amount, sufficiency, duration and scope of health care services and who may provide services, the administration shall prepare a fiscal impact analysis on the potential effects of this change on the following year's capitation rates. If the fiscal impact analysis demonstrates that this change will result in additional state costs of \$1,000,000 or more for any fiscal year, the administration shall submit the policy change for review by the joint legislative budget committee.

The legislature intends that the percentage attributable to administration and profit for the regional behavioral health authorities be nine percent of the overall capitation rate.

The Arizona health care cost containment system administration shall transfer up to \$1,200,000 from the traditional medicaid services line item for fiscal year 2024-2025 to the attorney general for costs associated with e-cigarette enforcement and tobacco settlement litigation.

The Arizona health care cost containment system administration shall transfer \$836,000 from the traditional medicaid services line item for fiscal year 2024-2025 to the department of revenue for enforcement costs associated with the March 13, 2013 master settlement agreement with tobacco companies.

The amount appropriated for the traditional medicaid services line item includes \$4,098,200 from the state general fund and \$8,059,900 from expenditure authority for inpatient payments to rural hospitals as defined in section 36-2905.02, Arizona Revised Statutes.

- 37 -

Of the amount appropriated for the proposition 204 services line item, \$100,000,000 shall be used from the hospital assessment fund established by section 36-2901.09, Arizona Revised Statutes, to cover a portion of the nonfederal share of the costs of services described in section 36-2907, subsection F, Arizona Revised Statutes. This amount is included in the expenditure authority fund source.

On or before June 30, 2025, the Arizona health care cost containment system administration shall report to the joint legislative budget committee on the progress in implementing the $\frac{Arnold\ v.\ Sarn}{v.\ Sarn}$ lawsuit settlement. The report shall include, at a minimum, the administration's progress toward meeting all criteria specified in the 2014 joint stipulation, including the development and estimated cost of additional behavioral health service capacity in Maricopa county for supported housing services for 1,200 class members, supported employment services for 750 class members, eight assertive community treatment teams and consumer operated services for 1,500 class members. The administration shall also report by fund source the amounts it plans to use to pay for expanded services.

Long-term care

Any federal monies that the Arizona health care cost containment system administration passes through to the department of economic security for use in long-term care for persons with developmental disabilities do not count against the long-term care expenditure authority.

Pursuant to section 11-292, subsection B, Arizona Revised Statutes, the county portion of the fiscal year 2024-2025 nonfederal costs of providing long-term care system services is \$399,872,100. This amount is included in the expenditure authority fund source.

Any supplemental payments received in excess of \$97,235,600 for nursing facilities that serve Arizona long-term care system medicaid patients in fiscal year 2024-2025, including any federal matching monies, by the Arizona health care cost containment system administration are appropriated to the administration in fiscal year 2024-2025. Before spending these increased monies, the administration shall notify the joint legislative budget committee and the governor's office of strategic planning and budgeting of the amount of monies that will be spent under this provision. These payments are included in the expenditure authority fund source.

<u>Payments to hospitals</u>

The \$5,087,100 appropriation for disproportionate share payments for fiscal year 2024-2025 made pursuant to section 36-2903.01, subsection 0, Arizona Revised Statutes, includes \$4,202,300 for the Maricopa county health care district and \$884,800 for private qualifying disproportionate share hospitals.

- 38 -

Any monies received for disproportionate share hospital payments from political subdivisions of this state, tribal governments and any university under the jurisdiction of the Arizona board of regents, and any federal monies used to match those payments, in fiscal year 2024-2025 by the Arizona health care cost containment system administration in excess of \$65,330,500 are appropriated to the administration in fiscal year 2024-2025. Before spending these increased monies, the administration shall notify the joint legislative budget committee and the governor's office of strategic planning and budgeting of the amount of monies that will be spent under this provision.

The expenditure authority fund source includes voluntary payments made from political subdivisions for payments to hospitals that operate a graduate medical education program or treat low-income patients and for payments to qualifying providers affiliated with teaching hospitals. The political subdivision portions of the fiscal year 2024-2025 costs of graduate medical education, disproportionate share payments — voluntary match, traditional medicaid services, proposition 204 services and adult expansion services line items are included in the expenditure authority fund source.

Of the amount appropriated in the operating lump sum, \$487,093,200 is designated for personal services and \$222,017,000 is designated for employee-related expenditures. The department shall submit an expenditure plan for review by the joint legislative budget committee before spending these monies other than for personal services or employee-related expenditures.

After the department submits an expenditure plan to the joint legislative budget committee, the department may transfer personal services and employee-related expenditures savings from the operating budget to the private prison per diem line item for private prison staff stipends. The amount of any private prison staff stipend may not exceed the amount given to department staff. The expenditure plan is not subject to review by the joint legislative budget committee.

The department shall submit an expenditure plan for review by the joint legislative budget committee before spending monies appropriated for the overtime and compensatory time line item other than for personal services or employee-related expenditures.

Private prison vendors that contract with this state may use staff vacancy savings to pay for overtime costs without incurring a penalty or staffing offset.

Before placing any inmates in out-of-state provisional beds, the department shall place inmates in all available prison beds in facilities that are located in this state and that house Arizona inmates, unless the out-of-state provisional beds are of a comparable security level and price.

- 50 -

The state department of corrections shall forward to the president of the senate, the speaker of the house of representatives, the chairpersons of the senate and house of representatives appropriations committees and the director of the joint legislative budget committee a monthly report comparing department expenditures for the month and year-to-date as compared to prior-year expenditures on or before the thirtieth of the following month. The report shall be in the same format as the prior fiscal year and include an estimate of potential shortfalls, potential surpluses that may be available to offset these shortfalls and a plan, if necessary, for eliminating any shortfall without a supplemental appropriation. The report shall include the number of filled and vacant correctional officer and medical staff positions departmentwide and by prison complex.

On or before November 1, 2024, the state department of corrections shall provide a report on bed capacity to the joint legislative budget committee. The report shall reflect the bed capacity for each security classification by gender at each state-run and private institution, divided by rated and total beds. The report shall include bed capacity data for June 30, 2023 and June 30, 2024 and the projected capacity for June 30, 2025, as well as the reasons for any change within that time period. Within the total bed count, the department shall provide the number of temporary and special use beds. The report shall also address the department's rationale for eliminating any permanent beds rather than reducing the level of temporary beds. The report shall also include any plans to vacate beds but not permanently remove the beds from the bed count.

If the department develops a plan after the department's November 1, 2024 report to open or close one hundred or more state-operated or private prison rated beds, the department shall submit a plan detailing the proposed bed changes for review by the joint legislative budget committee before implementing these changes.

One hundred percent of land earnings and interest from the penitentiary land fund shall be distributed to the state department of corrections in compliance with the enabling act and the Constitution of Arizona to be used to support state penal institutions.

On or before December 15, 2024 and July 15, 2025, the state department of corrections shall submit a report to the joint legislative budget committee on the progress made in meeting the staffing needs for correctional officers. Each report shall include the number of filled correctional officer positions, the number of vacant correctional officer positions, the number of people in training, the number of separations and the number of hours of overtime worked year-to-date. The report shall detail these amounts both departmentwide and by prison complex.

- 51 -

Twenty-five percent of land earnings and interest from the state charitable, penal and reformatory institutions land fund shall be distributed to the state department of corrections in compliance with the enabling act and the Constitution of Arizona to be used to support state penal institutions.

Before spending any state education fund for correctional education monies in excess of \$723,200, the state department of corrections shall report the intended use of the monies to the director of the joint legislative budget committee.

Before implementing any changes in contracted rates for inmate health care contracted services, the state department of corrections shall submit its expenditure plan for review by the joint legislative budget committee.

On or before August 1, 2024 and February 1, 2025, the state department of corrections shall submit a report to the joint legislative budget committee on the status of all inmate health care performance measures that are tracked by the department for contract monitoring purposes. Each report must include:

- 1. The total number of performance measures, by facility, for which the department is not in substantial compliance.
 - 2. An explanation for each instance of noncompliance.
 - 3. The department's plan to comply with the performance measures.

On or before August 1, 2024, the state department of corrections shall transfer to the public safety personnel retirement system via the department of administration its estimated required annual contribution to the corrections officer retirement plan for fiscal year 2024-2025.

The department shall report actual fiscal year 2023-2024, estimated fiscal year 2024-2025 and requested fiscal year 2025-2026 expenditures as delineated in the prior year when the department submits its fiscal year 2025-2026 budget request pursuant to section 35-113, Arizona Revised Statutes.

The department shall use the amount appropriated in the private prison per diem line item to pay private prison contractors for housing and providing medical care to Arizona inmates. Before spending these monies for any other purpose, the department shall submit an expenditure plan for review by the joint legislative budget committee.

The amount appropriated in the injunction-related IT upgrades line item shall be used to address information technology improvements as required by the court in the $\underline{\text{Jensen } v. \ \text{Thornell}}$ inmate health care litigation.

The department shall use the amount appropriated in the noncontract medication line item to purchase medications to treat hepatitis C and for medication-assisted treatment for substance use disorder. Before spending these monies for any other purpose, the department shall submit an expenditure plan for review by the joint legislative budget committee.

Before implementing developmental disabilities or long-term care statewide provider rate adjustments that are not already specifically authorized by the legislature, court mandates or changes to federal law, the department shall submit a report for review by the joint legislative budget committee that includes, at a minimum, the estimated cost of the provider rate adjustment and the ongoing source of funding for the adjustment, if applicable.

Monies in superior court line items intended for this purpose shall be transferred to the superior court operating budget before expenditure.

Judges

Of the 240.5 FTE positions, 182 FTE positions represent superior court judges. This FTE position clarification does not limit the counties' ability to add judges pursuant to section 12-121, Arizona Revised Statutes.

Probation

Monies appropriated to juvenile treatment services and juvenile diversion consequences shall be deposited in the juvenile probation services fund established by section 8-322, Arizona Revised Statutes.
